A Performance Stats Accelerator

Football Player+ is a Web and Mobile App which gathers and displays all covered player's stats and performance details to support and enhance players, technical teams, clubs and agents efficiency in each acting field.

Why Choose FP+?

Empowering Agents, Players & Coaches with Real-Time Insights

Personalized Objectives & Tracking: Enable players to set individual objectives and monitor their progress throughout the season with intuitive tracking tools.

In-Depth Match Analysis: Gain access to comprehensive match stats, heat maps, and event maps for detailed performance evaluations and tactical adjustments.

Player & Team Performance Reports: Compare player stats within the team, track rankings, and uncover competitive insights to stay ahead of the game.

Comprehensive Season Recap: Visualize season-long achievements, identify trends, and pinpoint areas for growth with our detailed season recaps.

Leaderboard & Rankings: Foster a competitive spirit by tracking player positions among peers and overall team standings.

Unlock your stats management capabilities and improve your performances everywhere at anytime.
