

# Streamline New Employee Onboarding with Delightful Digital Experiences

## OutSystems for Workplace Innovation

Reduce the burden on HR and Hiring Managers by seamlessly connecting disparate systems and automating onboarding tasks while giving employees a guided experience on their first days. Help new hires break free from the complexity of navigating multiple off-the-shelf solutions, by creating easy-to-use applications for any device quickly, and easily connect them with core HR systems to ensure compliance.

One in four CFOs state that unwanted turnover accounts for 25% to 50% of labor costs. One in 10 says that it eats up more than 50% of labor costs.

## Create intuitive New Employee Onboarding applications that unify systems and data to optimize HR processes and delight new hires.

### Create personalized experiences that boost employee productivity

Quickly build intuitive apps that guide employees through all the steps of their onboarding process and are available on any device. Leverage a library of pre-built UX/UI components to assemble interfaces that make it easy to access critical documentation, learning course assignments, activities to complete and more.

### Digitize and streamline onboarding processes

Break free from manual tasks and scattered data by unifying the onboarding experience in a single application. Easily connect to any internal system or third-party service to enable new employees to keep track of their activities, while providing HR automation to distribute tasks, request digital signatures, or schedule introductions.

### Adapt quickly to changing working conditions and regulatory requirements

Partner tightly with the business and keep onboarding journeys flexible for any scenario - virtual or in-person. Harness the speed of visual development with 100+ pre-built components covering common digital interaction patterns and respond quickly to changing job requirements and regulations — all with full application lifecycle support.

## Customers who already built successful employee onboarding experiences

Learn how Kent State University built an orientation mobile app in just 9 days to provide students with a fully digital onboarding experience.
