OUTSYSTEMS FOR WORKPLACE INNOVATION

Create a Modern, Flexible Office Space For Your Employees to Thrive

Create a modern workspace that minimizes real estate costs, ensures employee health & safety, and gives your workforce the flexibility they demand. Point-and-click to provide employees with an easy-to-use desk booking system and optimize your office space based on real-time occupancy data. Automate workflows for check-ins or sanitizations and quickly make changes as new regulations arise.

Invest in a Modern Office Management Application

Give your workforce the flexibility they demand

Allow your workforce to easily book office space when needed in a convenient mobile app. Make your full remote or hybrid workers' lives easier by accessing offices safely, or booking a desk or a meeting room. Have your company recognized as an innovative, digitized employer that cherishes its human capital.

Optimize your office space and real-estate costs

Provide your facility managers real-time back-office views of physical space usage, and help them break free from unnecessary real-estate and maintenance costs. Rearrange and optimize your office spaces in a dedicated panel, acting upon real-time data - utilization, occupancy, or movement paths - and transition to a modern, cost-effective workplace.

Ensure employee health & safety, and keep pace with evolving regulations

Quickly deploy contact tracing, automated sanitization scheduling, and vaccine status-tracking in a single mobile app to conveniently ensure healthy, fully-staffed operations. Help your office employees feel safe by closely following new health & safety requirements and rapidly updating app functionality for ongoing compliance.

Customers who already built successful Office Management Systems

sage

Learn how Sage embraced the future of work in under six weeks and how the development of their MyWorkSpace app improved their work flexibility and collaboration.
